

# Green & Sustainable Wastewater Treatment ~ workshop ~

Drs. Brian Slater and Karen Mancl  
The Ohio State University

July 24, 2018

Molly Caren Agricultural Center  
Home of the Farm Science Review  
Highway 40, just west of Lafayette  
Near London, Ohio

Sponsored By:  
The Ohio State University Extension

This event features field work –  
so dress for the weather and be prepared to get wet and dirty.

## **Workshop Schedule**

### **Septic System Siting and Seasonal Water Tables**

July 24 9:30 – 4:30 Molly Caren Ag. Center

- soil hydrology
- hydrological cycle and soil water balance
- seasonal saturation
- morphological indicators of soil moisture conditions
- water in the landscape
- evaluation and mapping soil hydrological conditions and limitations
- documenting hydrological conditions in site and soil evaluations
- system siting with soil hydrology in mind

Bring a copy of your Munsell color book – if you don't have one, order one with your registration.

#### *CEUs*

The workshop has been submitted to the Ohio Department of Health and the Sanitarian Registration Board for 6 hours of continuing education credit.

#### *Who Should Attend*

Consulting soil scientists, sanitary engineers, registered sanitarians and others who design small and onsite wastewater treatment systems.

*Registration*

The registration fee includes workbooks, all materials for the workshop, lunches and breaks. If you already own a Munsell Soil Color Book, bring it with you to the class. Otherwise you can purchase a copy with your registration.

**Circle: Visa    Master Card    Discover**

**Or register online at: [Firstclassconferences.com](http://Firstclassconferences.com)**

*Location:*

Molly Caren Agricultural Center  
Home of the Farm Science Review  
Highway 40, just west of Lafayette  
Near London, Ohio

**The log cabin is just off Highway 38. Take the first turn to the west on 38 just north of Interstate 70. The parking lot is on the north side of the road. Note: Highway 38 does not have an exit off I 70. Exit onto Highways 42 to the east or 56 to the west and drive south to Highway 40.**

Signs will direct you to parking and registration. For a map check the web site for the Soil Environment Technology Learning Lab [www.ag.ohio-state.edu/~setll](http://www.ag.ohio-state.edu/~setll)

*In cooperation with:*

Ohio Department of Health  
Farm Science Review  
Madison County Health Department  
Ohio Onsite Wastewater Association  
Ohio State University Research Foundation
